no suggestion

No...Its Okay...In Online mode...

Some teachers are not clearly audible so we don't understand properly about that subject

No suggestions

Start the offline college

Please send us a recording of lectures if possible

Plz start offline classes now its becoming very difficult to maintain the pace and understand things in online mode. We no more want online classes as it now feels we are falling back from our career and losing confidence. Offline classes are far far better than online classes .

We are strongly losing patience, understanding and interest in online lectures. All the students including me really want to learn effectively in offline mode so that we are well qualified for to be called as architects after getting the degree. Also we ourself are losing confidence and not feeling like learning what we are supposed to learn and falling back.

Please Start the College...

No thanks

No

No..

Something's different in online lectures. No matter how hard the lecturer tries its just hard to understand.

Would suggest to change the faculty of Quantity Survey and Estimation

Hostel should allow to stay there so we can contact teachers.

Start hostel facility

Wants to suggest to change the faculty of quantity surveying and estimation as we students are not able to grasp the subject properly

No, Thank you.

Autocad softwares are not working properly,  
So can collage give us students login acces of softwares

No suggestions

1.... Teachers only consider completing the syllabus. They do not give any extra knowledge or example.

2.... There is a lot of partiality in marking and submission.

I might be wrong about this mam but teacher are indirectly being biased sometimes, our performance should be judged on our current work level.

1. Some short assignments like , 'write quick summary of lecture and submit it - this will for our presenty .. because, it will be never distract us from lecture.
2. When we switch our cameras ON , there is great attention on lecture, but still all students not making there cameras On. So could we make it strictly compulsory?
3. Rest all going fine and fluent. 👍

This semester everything is going good ....teaching is effective as well

No suggestion good going and teachers are doing great job.

No suggestion

No...

Take on lecture timing

All good

All faculties are very nice...

No suggestions. Everything is nice.

All faculty are best

Some subjects are not understood in our field unless practically like bcm so hope so college will start soon

Teachers are always ready to help us any time

No suggestions.

The Time of the lectures should be Fixed.

Faculty should share online book or standard web sites for reference for particular topic or subject bcoz every time we are not able to get Right info from our side on Google .... Rather than last semester in this semester teaching quality is good we are very much satisfied with design and other facilities to.. 👍👏 thanking you

As told in beginning we all kept our cameras on but due to bandwidth issues we had to turn them off, but since then no one is asking to keep their video on not even while interactions. As we are supposed to on our videos we want our teachers to on their videos too at least for a while(during roll calls or chats) because in this semester we have new teachers and we don't even know who they are and we all were eager to know.

The most important problem is of network issue. If there is bad weather we are unable to hear anything.

Not any

No.

Nothing

Online classes are good but offline classes are far better than these..in online mode we understand what we have been taught but how to implement on our work this becomes a problem in online mode.

Facilities are more interactive in classes and prepared .

Offline classes is better than online may be

Due to this pandemic situation we can't attend offline classes...so you should not charge the entire fee from the students.

it is a good thing that there is more interaction between students and teachers for online lecture this time than last year .

plz share notes for reference or recorded lectures helpful due any network issue

due to this pandemic situation we can't attend offline classes..you shouldn't charge the entire fee from students

Practical knowledge is better than virtual knowledge. Due to this pandemic we can't attend the offline classes ...you should not charge the entire fee

No Suggestions

No suggestions. All lectures are going good. And also teachers are always ready to help us and soive our problems.

Offline lectures should start as early as possible

Online lecture is not getting like offline lecture

No any suggestion

Everything is good else network issue

I have network issue

Sometimes there are internet issues

Yes, After 45 min meeting will end.  
why clg is not extend time?  
Facing difficulty to connect zoom meeting.

Yes kbhi kbhi network problem

Network issues

Network issues from student side and froms teachers side also . After 45 minutes we have to join new meeting which is not appropriate while attending lectures

No... but sometimes bandwidth prob..so not able to listen properly

Yes, due to poor connectivity, on either my side or the teacher's

I'm living in a rural area so sometimes i face network issue. And due to heavy rain sometimes electricity problem also occurs. Online lecture consumes lots of data sometimes it get exhaust during lecture so it cause problem.

Profession should show video related to topic or case study

Everything is good

Toss problems should be solved on blackboard or notebook for understanding

Timetable should be more proper

Extend limt of meeting form 45 min to unlimited time

Plz can we have another app to attend class

We can switch software from zoom to Microsoft or google classrooms

Proper timetable including lunch brk

- At least one break be given since the mind gets saturated after sometime.
- A schedule of classes should be provided
- Class notice should be at least the night before

If the class is going to be of more than 4-5 sessions of 40mins then their should be a break of atleast 15 minutes in between.

Specific timetable should be decided as some lecture starts at 9.00am whereas some starts at 11.00am or 11.30 pm . Sometimes it will not be possible to check messages. So it will be easy if there will be a specific timetable.

Proper shedule time table.

Links for all the lectures should be sent a day before the lecture.

proper schedule of lectures  
detailed time table of online lectures

No i dont have any suggestions for teachers.

They teach much better than we expected

Everything is going in right way

Ni

Teaching tos on board will help more to understand

please make a fix time for lectures

Give us schedule timetable of online classes.

If possible should keep all the lecture sessions in morning because we face network issues in afternoon.

No...

While teaching teachers should not just read the PDF shared the should explain it and interact with students and ask them questions so that they can have some interest.

No suggestions

use graphical techniques, and send recorded video lecture to class mail id for reference.

Please decrease your teaching speed and explain in Marathi or hindi after English language

It will be better if the lecture is done according to the time table...and  
The link should be sent on the day before the lecture because the link is sent 15min or half an hour before. We are not online so miss the starting of the lecture .

No nothing

Please inform us one day before the lecture.. we can be prepare..

Need the lecture for revision

Noo

Not all but some lectures are just being like reading out PPT, may be that is because they are not that serious subject but i just felt they could be more live and interesting

Toss subject can be studied while explaining on the blackboard to make the concept more clear.

Please be lenient a bit
